

It's time for the right cold storage

Thermo Scientific™ TSX Refrigerators and Freezers are the right products to help you meet an array of impending regulations in 2020. Whatever is facing your lab the TSX Series offers increased sample protection, energy savings, and natural refrigerants will help you be ready. All while providing a better working environment with less heat output and whisper quiet operation.

Energy Star

TSX: Built for the most rigorous science and healthcare applications

Built to Protect

Our variable speed compressor technology (V-Drive) ensures the temperature continually adapts to the lab or clinical environment to maintain temperatures within a tight window around the set-point. When there are frequent door openings, the control system detects the activity and increases the drive speed to bring temperatures back to the set point quickly.

Built to Save

When conditions are stable, such as when the unit is running overnight or on weekends, the V-drive runs at a low speed, reducing energy consumption and operating costs while maintaining a stable temperature for your samples. Employing zero waste-to-landfill manufacturing and green refrigerants, it is also built to have minimal impact on the planet.

Built to Fit

The TSX series is built from the ground up, and has models to fit specific, highly regulated environments.

- FDA Class I and II Med Device Certification for blood and plasma storage.
- ISO Class 5 and 6 (ISO EN 14644-1 classification) clean room ready.
- Whisper quiet operation at 20x quieter sound levels than our previous generation, allowing placement in the most sensitive environments.

Built to Last

The TSX uses fewer moving parts, has less strain on the system, and only uses power when needed, making it a machine you can count on for years to come. That's why we back the TSX with a 10 year warranty in North America.

For a limited time save up to 50% when using special promotional part numbers*.

Ordering information

Description	Refrigerator Capacity	Doors/Shelves	Electrical	Exterior dimensions (D x W x H) in.	Cat. No.	Promo Price
TSX Series High-Performance Lab Refrigerator						
TSX REF Solid Door 30cf		Solid/ 4			TSX3005SARP	\$4,999
TSX REF Blood Bank 30cf		Glass/ 6 (Stainless Steel Drawers)			TSX3004BARP	\$8,399
TSX REF Pharmacy 30cf	30 cu. ft	Glass/ 6 (Basket Drawers)	115V, 60Hz	37.3 x 34.0 x 78.5	TSX3005PARP	\$6,349
TSX FRZ LAB 30cf		Solid/4			TSX3030FARP	\$6,399
TSX FRZ Plasma 30cf		Solid/ 7 (Stainless Steel Drawers)			TSX3030LARP	\$8,699

*Offer open to customers in the US and Canada. Offer valid for orders received by December 31, 2019 or until promotional supplies are depleted, whichever comes first. Please order using these special catalog numbers to take advantage of special pricing on products listed. Please ask your sales representative for details. Valid only in connection with the catalog numbers in this promotional brochure. "Discount", "savings" or similar terms represent difference between manufacturer's published list price and manufacturer's suggested price for promotional offer. Manufacturer reserves the right to discontinue or modify this promotion at any time. Customer acknowledges that this offer may include a discount or other price reduction that must be properly and accurately accounted for and reported by customer in accordance with all federal and state laws, including without limitation the federal anti-kickback law (42 C.F.R. § 1320a-7b(3)(A)) and regulations thereunder (42 C.F.R. §1001.952(h)). Not valid in connection with any other offer or discount. Void where prohibited by law or company policy. Please note that items represented at no cost represent "in-kind discounts" and should be reported accordingly. Prices and specifications or products subject to change at any time.
